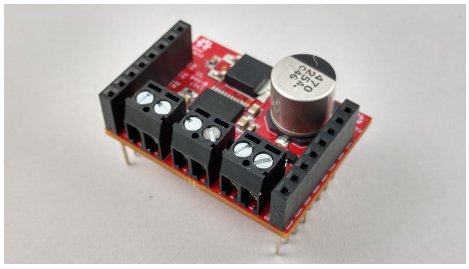
# OpenMV® Motor Shield

Datasheet

SKU: OMV-SHIELD-MOTOR

## Description



The Motor Shield provides a convenient way of powering your OpenMV Cam and controlling low-power motors in one package. It features a 5 V linear regulator to power your OpenMV Cam from a battery along with a motor driver chip to power two sub-2 A low-power motors from the same battery. The motor driver has 2 pins per motor to set H-Bridge direction and an additional pin per motor for PWM speed control.

## Target Areas

Robotics, mobile platforms, RC vehicles, conveyor control, small actuators.

## Key Features

- **Dual motor driver** — Drive two low-power motors at up to 2 A each with H-Bridge direction control and PWM speed.
- **5 V regulator** — Powers your OpenMV Cam from the same battery as the motors.
- **Compatible with Servo Shield** — Can be used simultaneously with the Servo Shield (different pins).

# 1 Features

## 1.1 Motor Driver

| Component | Details |
|---|---|
| **Channels** | 2 motor channels, each up to 2 A. |
| **Control** | 2 direction pins + 1 PWM pin per motor for H-Bridge direction and speed control. |

## 1.2 Power

| Component | Details |
|---|---|
| **Regulator** | 5 V linear regulator powers OpenMV Cam from the motor battery. |

## 1.3 Compatibility

| Component | Details |
|---|---|
| **Supported Cameras** | All OpenMV Cam models. |
| **Shield Stacking** | Compatible with Servo Shield (different pins). NOT compatible with Pan and Tilt Shield. |

# 2 General Info

| Dimension | Value |
|---|---|
| Weight | 30 g |
